# Today It's So Easy to Have Your **MORGAN** Modern Kitchen

THE kitchen of your heart's desire can be fully realized right here and now—TODAY! From these very pages you can select just the right cabinets to fit the space you have available and fully meet the requirements of your family.

In Morgan Kitchen Cabinets you get the last word in modern design; the most complete assortment of cabinet types for every kitchen need—the most efficiently planned units, available right out of stock for immediate delivery to your door.

Morgan Cabinets will quickly and inexpensively convert an old-fashioned kitchen into a room of beauty and convenience—a place that is really a pleasure in which to work—where utensils are just where they should be—always within easy reach and never in the way. The space arrangements in all Morgan Cabinets were suggested by domestic science authorities and consequently assure minimum waste of motion and time.

Modern, indeed, in every detail of convenience—these superior cabinets possess the beauty and perfection of accepted and correct design for which all Morgan products are famous. With Morgan Cabinets in your kitchen you can be proud of unerring taste in their selection and your pride in them will endure, for Morgan Cabinets endure. Built of fine wood—fitted carefully together by painstaking craftsmen these cabinets are made to give years of friendly service. Notice how snugly and flush the doors and drawers fit—no dust or vermin can find entry—notice, too, the excellence of the hardware—Chromium plated—dirt deflecting—rust proof! Examine the workmanship—then we feel sure you will insist on Morgan Cabinets for your kitchen!

COMPLETE LINE OF  
MORGAN KITCHEN CABINETS

THESE EFFICIENT, STEP-SAVING COMBINATIONS ARE  
SIMPLE TO CREATE WITH MORGAN SECTIONAL CABINETS

Homemakers demand a modern kitchen of new exciting design and one that is efficient in every respect! The advantages of such a kitchen are obvious.

As the keystone of a truly modern kitchen, we offer Morgan Kitchen Cabinets.

Such a kitchen releases the fortunate home-maker from drudgery, makes cleaning easier, with definite savings in time and steps. Women get better results with less effort in this modernly arranged kitchen in contrast with the daily struggle in the old-fashioned, inefficient kitchen with out-moded equipment.

These new kitchens are the result of intensive research by home-makers, home economists, and engineers searching for the best practical labor-saving arrangement plus new and better equipment to best realize these advantages. It has been generally agreed that a kitchen should be organized into "work centers." Five major centers have been fairly well standardized. See illustrations below.

## 1. Storage and Preparation Center

Here should be grouped food storage, including the refrigerator for perishable foods, shelves for canned and packaged goods, special drawers for flour and sugar, and a working surface for food preparation with utensils, mixing-bowls, electric mixer, and baking pans close at hand.

## 2. Cooking and Serving Center

Here will be found the range and an adjacent working surface, with wall cabinets for the storage of serving dishes and glassware; also base cabinets for utensils used at the range.

## 3. Cleaning and Dishwashing Center

Here the center is dominated by the sink. An electric dishwasher may be permanently installed either adjacent to it or as an integral part of the sink base. The base cabinet provides for cleaning materials, garbage container, and a drawer for dish towels.

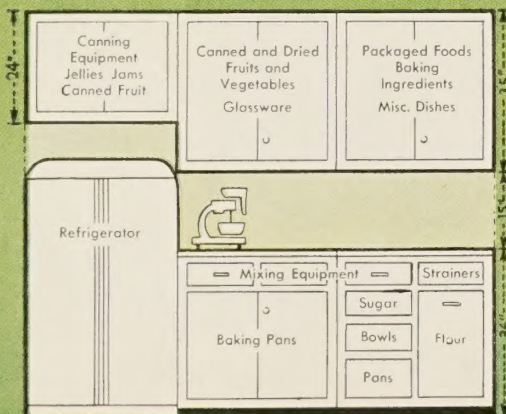

Supplementary or optional centers usually found in the more complete kitchens include:

## 4. Utility Storage Center

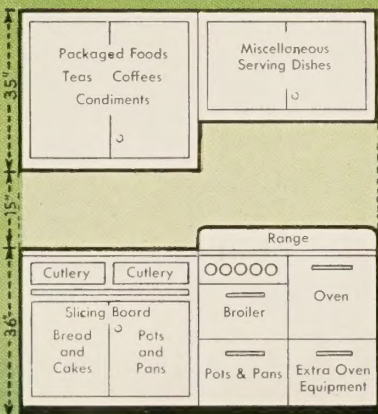

This is comprised of at least a tall storage cabinet to store aprons, a broom, vacuum cleaner, wax polisher, together with shelves for linens, additional appliances and cleaning materials.

## 5. Planning Center

A desk at convenient height with a comfortable chair, extension telephone and a shelf or drawers for cook-books, grocery lists, and odds and ends, is an important time-saver for the busy homemaker.

1 Storage and Preparation Center

2 Cooking and Serving Center

3 Cleaning & Dish-Washing Center

4 Utility Storage Center

5 Planning Center

# The 4 Basic Kitchen Layouts

REGARDLESS OF YOUR FAMILY NEEDS MORGAN STOCK KITCHEN CABINETS WILL PRODUCE JUST THE IDEAL "MADE-TO-ORDER" ARRANGEMENT YOU REQUIRE

**U-TYPE**

**L-TYPE**

**CORRIDOR TYPE**

**SIDE-WALL TYPE**

Basically there are four types of kitchens—U-Type, L-Type, Corridor Type and Sidewall or the one-wall Type. Typical examples of these are shown to the left. Although layouts and sizes vary, and the position of the doors, windows and radiators vary, the kitchen nevertheless is of one of these basic types.

For maximum efficiency and ease of movement from one work center to the other, it is good planning to adopt as closely as possible one of these basic plans, taking advantage

of all available space. The layouts shown on this page are planned for the utmost convenience. They are practical and incorporate every facility to make them well organized kitchens.

Regardless of the type or size of your kitchen, you may be sure Morgan Kitchen Cabinets will meet your every requirement. Morgan Cabinets are designed by leading kitchen research designers and harmonize with the latest in refrigerators, ranges and other kitchen equipment.

## U-TYPE KITCHEN

A most efficient, compact arrangement. Everything is close at hand. Note order of work areas: refrigerator at service door where it should be, then follow the food preparation center and range close to dining room. Space between parallel work surfaces should be at least four feet.

## L-TYPE KITCHEN

This plan is used where two adjoining walls are available for cabinets and other kitchen equipment leaving other walls for door and window openings. This plan provides for a nook or luncheon bar.

## CORRIDOR-TYPE KITCHEN

Here cabinets and appliances are placed along two parallel walls with sink usually on one side and the refrigerator and range on the other.

## SIDEWALL-TYPE KITCHEN

Used generally in small homes. All work centers on one wall in their proper order—"Storage," "Preparation," "Cooking" and "Serving."

## ACCESSIBILITY . . .

### THE KEYNOTE HERE!

Everything is at your finger tips!—Morgan Cabinets are spacious and easily accessible. Base units are of the correct working height (36 inches including counter) and have continuous toe space. Depth of cabinets provides maximum storage yet allows for easy reach to all shelves in base cabinets as well as upper cabinets.

The new cook book shelf, chopping block, slicing board, metal racks, sliding flour bin, towel rack, lap table and numerous other outstanding features of Morgan kitchen units make them, indeed, the most accessible of cabinets!

## TOP EFFICIENCY IN THESE CABINETS . . . PLANNED BY DOMESTIC SCIENCE AUTHORITIES

Picture your own kitchen equipped with a Morgan Modern Cabinet assembly. Imagine all the unnecessary effort, confusion, and the countless steps it will save you. How easily it can be kept clean—how orderly and convenient it will be with a place for everything and everything in its place. Most important, too, how much brighter and more pleasant your kitchen will look—why you cannot but absorb and reflect the same brightness and cheer!

Morgan Kitchen Cabinets are not thoughtlessly planned make-shifts. The assembly suggestions in this book were carefully planned with the assistance of nationally famous domestic science authorities, architects and others specializing in kitchen problems who know just how and where to place each door, shelf, drawer and tray for your utmost convenience.

Life  
Easier"*

## MORGAN LAUNDRY-KITCHEN . . . COMPACT . . . MODERN!

What a layout!—Indeed, what a perfectly wonderful arrangement for the two most important departments of home economy . . . laundering and meal preparation! Such efficiency. It's the order of the day. Laundry and kitchen drudgery goes by the board and living at home takes on a new sparkle and pleasure.

Neat as a pin; compact; everything orderly arranged and . . . what abundant dust-proof cabinet space for storage so easily accessible

both in the laundry section and the kitchen!

With modern time-saving, step-saving laundry and kitchen facilities combined on one floor you can accomplish *more* by doing *less*! No more back-breaking basement stair climbing with heavy basket loads of laundry. Morgan Cabinets in this smart laundry-kitchen are all carried in stock in standard sizes ready for prompt delivery—sold only by your local lumber dealer.

15. Front Frame  $\frac{3}{4}$ " thick, grooved to receive Tongued Ends.

MEASUREMENTS OF MORGAN KITCHEN CABINETS

## POINTS OF SUPERIORITY IN MORGAN CABINETS

Planned by noted architectural and domestic science authorities. The men engaged to design Morgan Period Woodwork also designed Morgan Kitchen Cabinets.

Scientifically conceived to render greatest efficiency in kitchen layout—time-saving—tool-saving!

Fit any space—meet any requirement. Hundreds of practical assemblies may easily and quickly be produced with Morgan Kitchen Cabinet units. Strictly modern in design—exposed surfaces are all flat, dust-proof, sanitary, easy to keep clean. Morgan Cabinets harmonize with all of the latest modern designs, ranges, refrigerators and other kitchen utilities.

### DOORS

Doors are full  $\frac{3}{4}$ " thick, 5 ply with Basswood veneer faces and are guaranteed not to warp, twist or buckle. Doors and drawers have lip fronts providing added security against dust and vermin.

Morgan doors are very light and easy on hinges. They will not sag. The beveled rabbet on Morgan doors will prevent binding.

Morgan cross banding on doors makes smooth exposed edges. Morgan face veneers are Basswood giving a smooth satiny appearance and providing a perfect painting surface.

### DRAWERS

Morgan drawers have  $\frac{3}{4}$ " sliding frame under the drawer with guides on each side nailed into the side of the body so that they will have easy action at all times. Drawer Slide Frame is put together at factory.

### HARDWARE

Special, improved tarnish proof Chromium hardware furnished for exterior, and Cadmium plated parts for interior of cabinets.

Morgan drawer pull is neat and attractive. Screws will not loosen as they are fastened through the drawer from the back. Morgan door knobs are sturdier, more attractive, and more solid as attached to the door from the back.

### BODY OF CABINET

Made of soft woods ready for painting. Substantially constructed.

The face rim in Morgan Kitchen Cabinet base units is  $1\frac{1}{2}$ " on sides and bottom with a 2" top rail. Face rim of upper units  $1\frac{1}{2}$ " all around.

Morgan front frame is mortised and tenoned and glued together, whereas the frame in many cabinets is nailed only. Morgan front frame is grooved so that the end pieces that are tongued fit together perfectly.

Working heights are full 36" including counter—the most convenient height for the average housewife. Eliminates tiresome stooping.

Space arrangements in all Morgan Cabinets were worked out by domestic science authorities and consequently assure minimum waste of motion and time. Utensils are always where they should be—always within easy reach and never in the way.

Morgan Kitchen Cabinets are made on regular stock sinks and drainboards of porcelain, tile, Monel Metal, Stainless Steel, Bakelite, Formica or plain wood fit perfectly. Note: Your dealer can furnish any type of sink or counter top desired.

Furnished unpainted to enable the painter to finish cabinets to harmonize with the color scheme of the kitchen. Already painted cabinets often clash with other colors in the kitchen.

Continuous toe space at base of cabinets is provided for working comfort and to keep front of base free from mop stains. (No legs to catch dust.) Metal bread and cake drawers and flour container of special heavy sheet tin. Metal flour bins are of AAA charcoal tin.

Morgan Kitchen Cabinets can be easily and quickly put together. All pieces are clearly marked so that "A" fits into "A"; "B" into "B", etc. Furthermore, each carton contains full direction sheets.
